-

1. System Overview

The portal is a fully Arabic, RTL-first learning management system designed specifically for Egyptian secondary-school English teachers. It covers the complete workflow from publishing curriculum content to collecting payments and tracking student performance.

Feature Summary

Feature	What It Does
Curriculum Builder	Create units and lessons per grade, attach video links and PDF files
Test Creator	Build MCQ tests with explanations, set pass marks and timers
Student Management	View, add, suspend, and enroll students manually
Payment System	Accept Fawry, Vodafone Cash, and coupon codes; track all revenue
Analytics	Charts for performance trends, most-missed questions, at-risk students
AI Insights	GPT-powered recommendations for the teacher and each student
Live Lecture Pass	Sell a paid “live pass” unit; students join your Zoom/Meet session
Notifications	Auto-alert enrolled students when a lesson is published or live starts
Content Protection	Anti-recording overlay, student watermark, right-click disabled
Settings	Customize portal identity, prices, payment numbers, welcome message

2. Logging In

The portal uses **Manus OAuth** — there are no separate usernames or passwords to remember.

Steps:

1. Navigate to the portal URL (e.g. `https://engportal-vasxkdjs.manus.space`)
2. Click “**تسجيل الدخول**” on the sign-in page
3. You are redirected to the Manus login page — sign in with your Manus account
4. On first login the system recognises you as the **admin (teacher)** automatically because your Manus account is the portal owner

5. You land on the Teacher Dashboard at `/teacher`

Note: Students log in the same way. The system assigns the `admin` role to the portal owner and the `user` role to everyone else. To promote a student to admin, use the Database panel → `users` table → change their `role` to `admin`.

3. Dashboard

Path: `/teacher`

The dashboard gives you a real-time snapshot of the portal.

Stats Cards (top row)

Card	Meaning
الطلاب النشطون	Number of students who have at least one active enrollment
إجمالي الإيرادات	Sum of all successful payment transactions in EGP
متوسط الدرجات	Average test score across all students and all tests
الوحدات المنشورة	Number of units currently visible to students

Recent Payments Feed

Shows the last 5 transactions with student name, unit, amount, and payment method.

AI Insights Panel

Powered by GPT. Click “تحديث التوصيات” to generate:

- A list of **at-risk students** (low scores or no activity)
- The **most commonly missed questions** across all tests
- A narrative summary with actionable suggestions

Quick Actions

Buttons that jump directly to: Add Unit, Add Test, View Students, Go to Settings.

Live Lecture Banner

If the live room is enabled in Settings, a red banner appears at the top of the dashboard with the meeting link. Click it to join your own session for a quick check.

4. Curriculum Builder

Path: /teacher/curriculum

This is where you build and organise all learning content.

4.1 Understanding the Structure

```
Grade Level (e.g. الصف الثالث الثانوي)
├── Unit 1: داخل عالم الرعاية
│   ├── Lesson 1: القراءة - يومي في حياة ممرضة
│   │   ├── Video material (YouTube link)
│   │   └── PDF material (uploaded file)
│   └── Lesson 2: المفردات
│   └── ..
```

4.2 Grade Filter Tabs

At the top of the page, tabs show all grade levels that have units. Click a tab to filter the list. The “الكل” tab shows all grades at once.

4.3 Creating a Unit

1. Click “إضافة وحدة جديدة +” (top-right button)
2. Fill in the form:

Field	Description
الصف الدراسي	Select the grade from the dropdown (e.g. الصف الثالث الثانوي)
رقم الوحدة	Select the unit number (1–20) from the dropdown
عنوان الوحدة بالعربية	Type the Arabic title (e.g. داخل عالم الرعاية)
وصف الوحدة	Optional short description shown to students
السعر (جنيه)	Price students pay to enroll in this unit
باقعة حصص مباشرة	Toggle ON if this unit is a Live Lecture Pass (no lessons — students go directly to the live room)
نشر للطلاب فور الحفظ	Toggle ON to make the unit immediately visible to students

1. Click “إنشاء الوحدة”

Tip: Leave “نشر” OFF while you are still adding lessons. Publish only when the unit is ready.

4.4 Editing or Deleting a Unit

- Click the **pencil icon** () on any unit row to open the edit form
- Click the **red trash icon** () to delete — this also deletes all lessons inside
- The **published/draft badge** on each row shows the current visibility status

4.5 Expanding a Unit to See Its Lessons

Click anywhere on a unit row (or the chevron ▼) to expand the lessons panel below it.

4.6 Creating a Lesson

1. Expand the target unit
2. Click “درس جديد +”
3. Fill in the lesson form:

Field	Description
رقم الدرس	Select the lesson number (1–30) from the dropdown
عنوان الدرس بالعربية	Type the Arabic lesson title
رابط الفيديو الرئيسي	Optional: paste a YouTube embed URL (e.g. <code>https://www.youtube.com/embed/XXXX</code>)
المدة (دقيقة)	Estimated lesson duration in minutes
معاينة مجانية	Toggle ON to let students preview this lesson without paying

1. Click “إنشاء الدرس”

4.7 Adding Materials to a Lesson (Videos & PDFs)

Each lesson has a dedicated **Materials Panel** for attaching multiple resources.

1. Expand the unit → find the lesson row
2. Click the “المواد” button (paperclip icon) on the lesson row
3. The Materials Panel expands inline below the lesson

To add a video link:

1. Type the video title in Arabic in the first field
2. Paste the YouTube embed URL in the second field
3. Click the + button

To upload a PDF:

1. Type the PDF title in Arabic
2. Click the file picker and select a .pdf file from your computer
3. The file uploads automatically to secure cloud storage (S3)
4. A confirmation toast appears when done

To delete a material:

- Click the red trash icon next to any material in the list

Note: Materials are visible to enrolled students at the bottom of each lesson page.

4.8 Publishing a Unit

Toggle “نشر للطلاب” ON in the unit edit form, or use the published/draft badge on the unit row. When a unit is published, enrolled students receive an automatic in-app notification.

5. Tests

Path: /teacher/tests

5.1 Selecting a Unit

Use the “اختر الوحدة” dropdown at the top to load the tests for that unit.

5.2 Creating a Test

1. Select a unit from the dropdown
2. Click “اختبار جديد +”
3. Fill in:

Field	Description
عنوان الاختبار	Test name shown to students
المدة (دقيقة)	Time limit; the student sees a countdown timer
(%) درجة النجاح	Minimum percentage to pass (e.g. 60)
نشر الاختبار	Toggle ON to make it visible to enrolled students

1. Click “إنشاء الاختبار”

5.3 Adding Questions

1. Click the “الأسئلة” button on any test card to open the question editor
2. Click “سؤال جديد +”
3. Fill in:

Field	Description
نص السؤال	The question text (supports Arabic and English)
الخيار أ / ب / ج / د	The four answer options
الإجابة الصحيحة	Select which option (أ, ب, ج, or د) is correct
الشرح	Optional explanation shown to students after they answer

1. Click “حفظ السؤال”
2. Repeat for all questions

5.4 Editing or Deleting Questions

- Click the **pencil icon** on any question to edit it
- Click the **trash icon** to delete it permanently

5.5 Publishing a Test

Toggle “نشر الاختبار” ON in the test edit form. Only enrolled students can see and take published tests.

5.6 Viewing Results

Student results are visible in the **Analytics** page and in each student’s profile in the **Students** page.

6. Student Management

Path: /teacher/students

6.1 Overview Cards

Card	Meaning
إجمالي الطلاب	Total registered student accounts
نشطون	Students with active status
موقوفون	Students with suspended status

6.2 Searching for a Student

Type a name, school name, or phone number in the search box. The list filters in real time.

6.3 Adding a Student Manually

1. Click "إضافة طالب +"
2. Fill in:
 - Arabic name, phone number, school name, grade level
3. Click "إضافة الطالب"

The student will need to log in via Manus OAuth to access their account. The profile you create here is linked to their account on first login.

6.4 Viewing a Student's Profile

Click on any student row in the list. The right panel shows:

- **Personal info:** name, phone, school, grade
- **Enrollments:** which units they are subscribed to
- **Test history:** all test attempts with scores, pass/fail, and date
- **Performance chart:** score trend over time

6.5 Enrolling a Student Manually

1. Open the student's profile (click their row)
2. Click "تسجيل في وحدة"
3. Select the unit from the dropdown
4. Click "تأكيد التسجيل"

This is useful when a student pays cash in person and you need to grant access immediately.

6.6 Suspending or Activating a Student

On any student row:

- Click the **red suspend icon** () to suspend — the student loses access to all content
 - Click the **green activate icon** () to restore access
-

7. Payments & Subscriptions

Path: /teacher/payments

7.1 Overview Cards

Card	Meaning
إجمالي الإيرادات	Total revenue from all successful transactions
كوبونات نشطة	Number of unused coupon codes currently available
معاملات معلقة	Transactions awaiting manual confirmation
باقات متاحة	Number of active subscription plans

7.2 Transactions Tab

Shows a full log of every payment with:

- Student name, unit/plan, amount, payment method, reference number, date, status

To export: Click “تصدير CSV” to download the full transaction log as a spreadsheet.

7.3 Subscription Plans Tab

Shows the current session price (حصة واحدة) and term price (نرم كامل) pulled from Settings. These are the prices students see on their Wallet page.

7.4 Coupons Tab

To generate coupon codes:

1. Click “باقة جديدة +”
2. Enter:
 - Number of codes to generate (e.g. 10)
 - Discount type: percentage or fixed amount
 - Discount value
 - Expiry date (optional)
 - Which unit the coupon applies to (or “all units”)
3. Click “توليد الكوبونات”

The system generates unique codes (e.g. `G12-UNIT2-7H8`). Share these with students who pay in person. Students enter the code on their Wallet page to unlock the unit.

To view existing coupons: Click the “كوبونات” tab on the Payments page to see all codes with their status (used / unused / expired).

7.5 Payment Methods

Students can pay via:

Method	How It Works
Fawry	Student pays at any Fawry outlet using your merchant code (set in Settings)
Vodafone Cash	Student transfers to your Vodafone Cash number (set in Settings)
Coupon Code	Student enters a code you gave them
Manual	You enroll the student directly from the Students page (zero-cost transaction)

8. Analytics & Reports

Path: `/teacher/analytics`

8.1 Performance Overview

- متوسط الدرجات — overall average score across all students
- معدل النجاح — percentage of test attempts that passed
- أعلى درجة — highest individual score recorded

8.2 Most-Missed Questions Chart

A horizontal bar chart showing the questions that the highest percentage of students answered incorrectly. Use this to identify topics that need more classroom attention.

8.3 Student Performance Trends

A line chart showing average scores over time. Useful for tracking whether the class is improving after each unit.

8.4 Best and Worst Students

Two ranked lists showing:

- Top 5 students by average score
- Bottom 5 students by average score (at-risk candidates)

8.5 Per-Student Performance Curve

Click on any student name in the Students page to see their individual score trend chart.

8.6 Video Watch Analytics

A section showing:

- Which lessons have the highest watch completion rates
- Which students have not watched any videos

8.7 AI Insights

Click “تحديث التوصيات” to ask the AI for:

- A narrative summary of class performance
 - Specific students who need intervention
 - Suggested topics to revisit in the next session
-

9. Settings

Path: /teacher/settings

9.1 Portal Identity (White Label)

This section is restricted to the **portal owner** (super-admin). Regular teachers cannot change these fields.

Field	Description
اسم المعلم	Displayed in the sidebar, login page, and student portal
المادة الدراسية	Subject name (e.g. اللغة الإنجليزية)
الصف الدراسي الافتراضي	Default grade shown on the login page

Click “حفظ هوية المنصة” to save.

9.2 Content & Welcome Message

Field	Description
رسالة الترحيب	Shown on the student login page
نبذة عن المعلم	Short bio shown on the landing page

9.3 Subscription Prices

Field	Description
سعر الحصة الواحدة (جنيه)	Price for a single-session subscription
سعر الترم الكامل (جنيه)	Price for a full-term subscription

Changes take effect immediately on the student Wallet page.

9.4 Payment Methods Configuration

Field	Description
كود تاجر فوري	Your Fawry merchant code — students use this at Fawry outlets
رقم فودافون كاش	Your Vodafone Cash phone number
ملاحظة الدفع	Custom instructions shown to students on the payment page

9.5 Live Lecture Room (غرفة البث)

Field	Description
رابط غرفة البث	Paste your Zoom, Google Meet, or YouTube Live URL
تفعيل البث المباشر	Toggle ON to start the live session

When you toggle ON:

- A red “● بث مباشر الآن” banner appears on the teacher dashboard and student home page
- All enrolled students receive an instant in-app notification
- Students with a Live Lecture Pass unit see a red “انضم للبث” button on their home page

When you toggle OFF:

- The banner disappears
- The live room page shows “لا يوجد بث مباشر الآن”

10. In-App Notifications

The notification bell (🔔) appears in the top bar of both the teacher and student interfaces.

How Notifications Work

Trigger	Who Gets Notified
Teacher publishes a unit	All students enrolled in that unit
Teacher publishes a lesson	All students enrolled in the parent unit
Teacher enables live room	All students with any active enrollment

For the Teacher

- The bell shows a red badge with the count of unread notifications
- Click the bell to open the dropdown list
- Each notification shows its type icon, title, and time

- Click “تعليم الكل كمقروء” to clear all badges at once

For Students

Students see the same bell in their top navigation bar. Clicking a notification takes them directly to the relevant lesson or live room page.

Notifications refresh automatically every 30 seconds — no manual reload needed.

11. Live Lecture Pass

A **Live Lecture Pass** is a special paid unit that gives enrolled students access to your live sessions instead of recorded lessons.

Setting Up a Live Lecture Pass Unit

1. Go to **Curriculum** → click “إضافة وحدة جديدة +”
2. Choose the grade, unit number, and write a title (e.g. “حصص مباشرة - الصف الثالث الثانوي”)
3. Set the price (e.g. 200 EGP)
4. Toggle “باقة حصص مباشرة” ON (the red section)
5. Toggle “نشر للطلاب” ON
6. Click “إنشاء الوحدة”

The unit appears in the curriculum with a  **بث مباشر** badge. When expanded, it shows a Live Pass info panel instead of a lessons list.

Starting a Live Session

1. Go to **Settings** → **غرفة البث**
2. Paste your Zoom / Google Meet / YouTube Live link
3. Toggle “تفعيل البث المباشر” ON
4. All enrolled students receive a notification immediately

Student Experience

- Students who paid for the Live Pass unit see a red “ انضم للبث” button on their home page

- Clicking it opens the `/student/live/:id` page
- If the live room is active, a large “انضم للحصة المباشرة الآن” button appears
- If the live room is off, the page shows a waiting screen with tips

Ending a Live Session

Toggle “تفعيل البث المباشر” OFF in Settings. The join button disappears for students.

12. Content Protection

The portal includes built-in protections to prevent unauthorised copying of lesson content.

Protection	How It Works
Anti-recording overlay	A semi-transparent overlay covers the video player, making screen recordings less useful
Student watermark	The student's name appears as a faint watermark on the video player
Right-click disabled	Right-clicking on lesson pages is blocked to prevent “Save as”
PDF print/download blocked	CSS rules prevent students from printing or downloading embedded PDFs

These protections reduce casual copying but are not a substitute for legal copyright protection.

13. Quick Reference — Common Tasks

Task	Steps
Publish a new unit	Curriculum → Add Unit → fill form → toggle “نشر” ON → Save
Add a lesson video	Curriculum → expand unit → click “المواد” on lesson → paste YouTube URL → click +
Upload a PDF	Curriculum → expand unit → click “المواد” on lesson → type title → pick file
Create a test	Tests → select unit → “اختبار جديد +” → add questions
Generate coupons	Payments → Coupons tab → “باقة جديدة +” → set discount → generate
Enroll a student manually	Students → click student → “تسجيل في وحدة” → select unit → confirm
Suspend a student	Students → click red suspend icon on student row
Start a live session	Settings → Live Room → paste URL → toggle ON
View revenue	Payments → Transactions tab → check إجمالي الإيرادات card
Export payment data	Payments → “تصدير CSV” button
Check at-risk students	Analytics → AI Insights → click “تحديث التوصيات”
Change prices	Settings → أسعار الاشتراك → update values → save

This manual covers the portal as of version 6f29abd8 (June 2026). For technical support, contact the portal administrator.
